21 December 2007

Dear Sir or Madam:

**North Wales Regional Waste Plan – Consultation Document – First Review**

With reference to the above Consultation Document, you are advised that the Executive Committee of the Council considered a report prepared by one of my officers on the 19 November 2007. I was given delegated authority to respond to this consultation as follows:-

**That the County Council**

**- welcome and support the publication of the North Wales Regional Waste Plan First Review Consultation Document.**

**- supports collaboration with the other Authorities in North Wales with the aim to provide a sustainable land-use planning framework for the provision of an integrated and appropriate network of waste management facilities for the region where such collaboration would also meet the needs of dealing with the island's own waste.**

**- will endeavour to identify suitable sites for waste management facilities through the process of preparing the new Local Development Plan for Anglesey.**

**- will keep its options open at this stage by not limiting its choices of waste technologies by favouring or discounting any of the seven top performing options referred to in the North Wales Regional Waste Plan First Review Consultation Document.**

I look forward to viewing a revised and updated version of the North Wales Regional Waste Plan during the Summer of 2008. If you require any further information, please do not hesitate to contact me.

Yours faithfully

**Jim Woodcock**  
**Head of Planning Services**
