

Dear Sir,  
I have read the Regional Waste Plan Document, but I'm afraid it is beyond my ability to make any comment. I trust you to do whatever necessary and I will do my bit by concurring with your plans for re-cycling.

I do have a suggestion to make which may help. Could you make yellow bags available for disposable nappies? I believe these are responsible for a massive increase in waste and therefore a shortage of landfill sites.

Yours faithfully,

Erin Thorpe (Mrs)
